

Group Leader Information

Welcome to Salford Watersports Centre to help us to give your group an enjoyable and safe visit please read and adhere to these simple rules.

- Please make all members of your group aware of our behaviour policy as displayed in reception.
- While the group is on land they need to be supervised by a member of your staff at all times. The instructors will give them a briefing and guidance during this time.
- Any behaviour problems are expected to be dealt with by you or your staff. The Instructors are here to provide the activity. The Group Leader is responsible for discipline.
- Whilst the group is on the water please let your location be known to our reception staff. The instructor will supervise the group on the water or activity; however should a member of the group need to come off the water/activity it is expected that they will be supervised by you or a member of your staff.
- Any group members not taken part in the activity will need to be supervised by you or your staff at all times. They are still expected to adhere to the behaviour policy
- Please make the instructor aware of any medical or behaviour problems that may occur within the group. This will assist the instructor when on the water/ activity and allow them to pre-empt any problems that may occur.
- If you require the group to be split in a certain fashion. I.e. individuals that need to be separated to assist with behaviour or learning, then please inform the instructors on arrival at the centre.

Your assistance is greatly appreciated and we hope you and your group enjoy your time at Salford Watersports Centre.
