

Your wheelie bin is a **target** for fire and theft – take it in.

Theft of wheelie bins and associated arson costs Salford taxpayers almost £2 million every year.

Wheelie bin fires are also dangerous, waste the fire services time and risk lives.

TARGET

We need your help to tackle this serious problem. By putting the bin out on the street only when necessary, this problem can be reduced.

Do not put your bin out before 7pm the night before collection. Collect your bin by 11pm on the day of collection.

This is a legal requirement and is your responsibility.

We have set these times to allow for different work hours, if you are able to leave your bin out for a shorter time period your help is appreciated.

We think it is unfair that people who bring their bins in end up paying through their council tax for those who don't.

People who leave their bins out repeatedly could be fined £100.

If you see anything connected to theft or arson on bins please help make your neighbourhood safer by calling **0161 909 6544** to report it.

The word "TARGET" is written in a bold, blocky font where each letter is filled with a bright orange and yellow flame effect, giving it a burning appearance.
