This map is based upon Ordnance Survey material with the permission of the Controller of Her Majesty's Stationery Office © Crown copyright.

This map has been produced in accordance with the Floods and Water Management Act 2010 (FWM Act) and the Environment Agency's Strategic Flood Risk Assessment (SFRA) National Standards. For further information on the SFRA see the Environment Agency's flood risk website: www.environment-agency.gov.uk

The Main River information shown in the SFRA is provided by the Environment Agency; the agency defined Areas Benefiting from Defences are also shown on this map.

The data shown in the map includes that from the Environment Agency’s Flood and Coastal Defence Database and uses the Environment Agency Flood Warning Areas. Flood storage Areas are also shown on this map.

The Areas Benefiting from Defences layer has been supplied by the Environment Agency, Local Authority and privately owned defence assets and Environment Agency Areas Defined as Defences (ABDs). This information is based upon the Environment Agency Areas Defined as Defences (ABDs). This information is based upon the Environment Agency Areas Defined as Defences (ABDs).

The Areas Benefiting from Defences layer has been supplied by the Environment Agency, Local Authority and privately owned defence assets and Environment Agency Areas Defined as Defences (ABDs). This information is based upon the Environment Agency Areas Defined as Defences (ABDs).

This map identifies flood risk management measures, including the location of Environment Agency flood and coastal defence assets and the Environment Agency Flood Warning Areas. Flood storage Areas (V1.19) are also shown on this map.

The Areas Benefiting from Defences layer has been supplied by the Environment Agency, Local Authority and privately owned defence assets and Environment Agency Areas Defined as Defences (ABDs). This information is based upon the Environment Agency Areas Defined as Defences (ABDs).

This map shows the areas that benefit from the presence of flood defences for a fluvial 1 in 100 year flood event. The Areas Benefiting from Defences layer has been supplied by the Environment Agency, Local Authority and privately owned defence assets and Environment Agency Areas Defined as Defences (ABDs). This information is based upon the Environment Agency Areas Defined as Defences (ABDs).
